Proposal Name

Online Sales Agent Management System

Introduction

This proposal is just a “proposal.” Nothing is final or binding until it is signed. Everything contained herein is open to negotiation. This is Just an idea regarding approach can be used by Intelligent Business Solution. IBS- have ability to provide hi-tech need based solutions

Our Uniqueness is that we develop not only develop system rather we deliver Intelligent Solution as per need of Client.

We encourage the discussions on this proposal. We will be more than happy to address to your questions, comments or concerns over the proposal.

We based on conceptual frameworks – we build them stronger and later on using Information Technology we translate it into system. This make our system very strong.

Further we make our systems so flexible that future functionalities can be plugged in easily.

Thank you in advance for taking the time to review our proposal. This is not a proposal of any ready made solution.

Features

Sales agent management software (SAMS) is an software for calculating sales build with PHP, MySql (Codeigniter frameworks). SAMS works generally three types of people such as Admin, Agent and User. Admin who can manage all things, creating Agent, user, take controll all over product and category. Admin also can manage all of order and invoice.

SAMS using ajax when fetching all of data from server, so page load only which data needs and depends your request , so application is so fast.

SAMS is ideal for Sales product base on commission, currently has four commission System.

1.Admin Commission

2.Agent Commission

3.User Commission and

4.Referral Commission

Commission will add to your account every time when product will sell. Note: Commission can set from admin panel settings

Main Feature of SAMS

- Category of product
- Product, Sell
- Invoice generate for every sales
- Agent with independent dashboard
- User with independent dashboard
- Account statistics
- Invoice PDF Generator
- Payment Request to admin
- Native Payment Method: Paypal, Skrill, Payoneer, Bank Transfer
- Email receive for every important activity
- Application settings
- Every person profile
- Every person activity
- Every person log
- Set commission from Settings panel
- Tracking your user or agent their every action. like facebook activity
- Tracking your user or agent their login log

Basic Methodology

Throughout Design, Develop and Implementation Process core Conceptual concept will remain in mind to keep operational system simplified upto maximum possible level so that operating said does not require any technical knowledge.

All Complexities of operational and conceptual procedures will be delt by the software internal algorithm. Keeping it simple for operator. For its operation any body who can play with computer can operate the Software.

Technology and Compatibility

Note: if all the jargon below is Greek to you, just know that it basically means that we will develop the Software to conform with all of today's technology standards.

Development Media	:	PHP,XML,
Database	:	mySQL

Timelines and Milestones

Our *tentative* production schedule proposed is as follows. However, please realize that these are NOT deadlines. If you require a specific launch date or other sorts of deadlines, we are happy to oblige given enough advance notice. Otherwise, we prefer to estimate the timeframes but ultimately take the amount of time that is needed for the best results. While we don't bill you by the hour, our costs are based on the amount of time we invest into each project. So rest assured that we have a very vested interest in moving quickly.

(Note that the days are measured in business days, starting from the day the project begin by receiving down payment and initial data required to take start.)

Basic Core development	2 Weeks
First Implantation and Testing at Client Site	1 Weeks
Fine tuned Final Version Handover	1 Weeks

Fees & Payment

Please go through details covered in this proposal. It would be easy for us to settle down the cost of the project when requirements are completley discussed by both parties.

Important Notes/Points:

- 1 Simply providing of Binaries. Source code will remain the property of the Intelligent Business Solution and will never be handed over what so ever the case may be.
- 2 This proposal is designed keeping in mind that this site would be support site not the Company main site. If you want to have it Company main site we can send u revised reworked proposed model.
- 3 As we can not share source code so hosting will be remain under our charge and we shall provide. What sort of hosting account needed depend upon
 - 1 Number of total Usere
 - 2 Number of user using site at same time
 - 3 nature and volume of data

4 Backend webapplication required initial dedicated RAM

- Cost Structure

In order to give you idea of web application cost structure it would have following components

- 1 . initial Setup Fee
- 2 . Monthly charges
- 3 . Training Charges

We really appreciate for your time and energies you have spend for going through this comprehensive proposal. If you need any further information, details it would be our p[leasure to provide you the same.

Hoping to hear from you soon and a proper detailed meeting time so that we can discuss your needs and can show how this application can full fill your needs.

Assuring you best of our services and looking forward to have good future business relationships.

Regards.
